Here, you have the opportunity to answer questions in more detail. You may either type out the answer to this essay and hand it in before your final examination, or write the essay during the final examination period after you take your in-class test.

### **The Essay Question**

Choose *one* of the following questions to answer. Answer the question in **no more than two full pages**. This means that you will have to pick and choose what is most important in answering the question.

All typed answers must follow the style sheet, which includes a requirement of 12-point Times New Roman or 12-point Arial font, 1½× or 2× spaced, and proper margin sizes.

As this is an exam, there is no need to cite your sources. There is, however, a need to **not** quote or paraphrase *any* source—this is *your* answer, **not someone else's**; you will be graded on your answer, not someone else's.

As an examination, this tests your knowledge of course material. Make sure you use it. Also, make sure you use facts and theories to write your argument.

### *Essay Questions*

1. What is an ethnic group?
2. How does economic advancement affect the violence of the ethnic group?
3. Were northern Iraq secede from Iraq and call itself Kurdistan, what would be the repercussions in the area?
